WOOD

Door block structure | Birch plywood

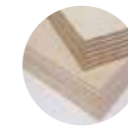

Birch plywood is made from 100% high quality, durable birch wood. It is an excellent material for producing furniture in general, as well as decoration.

Door assembly coating | HPL

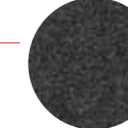

Thin high-pressure laminate (HPL) is a sheet made up of sheets of kraft paper impregnated with thermosetting resins and bonded together by heat and pressure.

Pod 's body| Melamine

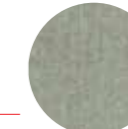

Panel with medium-density fiber substrate (standard MDF, waterproof, fireproof or other), coated on the surface with decorative melamine paper for use in dry or humid environments.

WHITE
OPTION: WOOD

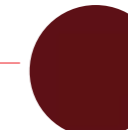

CEILING: BWF | VOLCANO 4002
High-density PET felt acoustic panels.

ACOUSTIC: CAMIRA | SYNERGY QUILT CHANNEL QSC08
A padded, extra-wide version of the soft-to-the-touch wool-blend fabric. The foam lining and padding create the density of the quilting, which is stitched to form patterns.

FABRICS: CAMIRA | ERA CSE11
A lightweight, stretchy polyester fabric designed to make upholstery easier.

CAMIRA | REPLAY *
Made from 100% recycled polyester and TCPP-free.
*Available colors: REP01 | REP07 | REP13 | REP18 | REP24 | REP28

FLOOR: FORBO | 900269 Carbon
It features a sturdy construction made of fine-fiber polyamide needle-punched felt, ensuring high quality and a long-lasting appearance.

WORK PHONE

Phone booth - 1 person

The Work Phone is an excellent choice for phone calls, short periods of individual work, and other activities.

Designed to accommodate one user, it includes all the essential features needed to work effectively.

In addition, it can be equipped with a backrest for added comfort.
